WORKING SESSION

Stories of Change: Trade behind the headlines

Where: Room S1

When: Thursday, 28 September
8:30–10:00

The session will highlight the results achieved on the ground and lessons learned by five countries and organizations under the auspices of the EIF partnership: Malawi, Nepal, Senegal, Togo and Vanuatu. These countries are taking significant steps to meet the Sustainable Development Goals (SDGs) through trade development.

Through the eyes of people working on the ground, the session will explore the challenges and opportunities to turn country roadmaps into businesses – both small- and medium-sized – with the capacity to trade regionally or internationally. The session will highlight stories of real impact on poverty alleviation, women's economic empowerment and resilience to climate change.
